

SECRETARY'S ANNUAL REPORT FOR THE YEAR 2011-2012

The Society has crossed its 2nd. year. With the experience of the last year we have done many such work which enriched our activities in the field of social welfare. This year we met with many new friends and the performed many joint activities.

Working process in rural areas in this year did not get its optimum speed. Activities in the rural area were stopped for three months at the beginning of this year due to declaration of the Assembly Election of the state. As the society do not work under a particular project sponsored by any Funding Agency, so carrying out the activities which we thought in the previous years were stopped for those three months as we did not want any political interference in our activities.

But the activities in urban areas were performed as per our planning

After the completion of the Assembly Election and formation of the new Government the Society again started its activities which were lying incomplete in the previous year.

Activities for last one year.

2. **TRAINING ON RNTCP** : Attended two days training on Revised National Tuberculosis Programme (RNTCP) at District Tuberculosis Office with the active participation of CBCI- CARD and DTO, Malda.

OUR FUTURE PLAN

It is already mentioned that the society was formed with the dream to serve the poor rural people. We consider serving the poor villagers as our primary duty. To make our goal success, we have planned to develop a single village as an ideal village. The village UPAR SAKARMA, under the GP Sahapur of Old Malda Block, under Malda District has selected by all the members of the society and we are working hard to develop the village in all respect.

As a first step of development we are going to establish employment generation among the members of the SGHs. **A land of Ten Katha (approx) of one Sri Binod Roy of the village has taken**

as lease for ten years in the name of the Society where the SHG (UparSakarma Nabadoy SHG-2) will open a Live Stock farm cum Business Centre.

The Society is planning to open a **Farmers' Club** with technical and financial help of NABARD in the village to develop the agricultural scenario of the village. Various economic ventures will be made with the members of the club as per guide line of NABARD to develop the economy of the village.

The village needs proper sanitation. The society has a plan to set **sanitary mud** in every house of the village so that the villagers do not use the open field for toilet etc.

The society has a plan to keep a **man pulled Van Ambulance** in the village so that the ill villagers can avail the facility of the vehicle for all 24 hours to reach hospital.

The Society wants to **ensure the education** of all the children of the village and a special drive will be taken by the society for the mission.

The Society has a plan to organize an **awareness program** in various schools and colleges for Prevention of Child Marriage, Disaster Risk Reduce, Blood donation, Tuberculosis etc.

Every activity needs monetary assistance. This year all the expenditure of the society is met with the subscription, donation and personal loan from various members along with the maintenance charge collected from two SHGs @ ₹ 350/- per month. This situation is not a healthy situation for a society. To ensure donation from the people of the district **the society has applied for 80G and 12A to the Income Tax Authorities so that the donors can get tax exemption from IT department.**

APPEAL

All the members, volunteers and the patrons are requested to tender their helping hand as long as possible so that the activities of the society can run smoothly.

VOTE OF THANKS

I cordially thank all the people who were associated with the society and supported me to carry out all work smoothly.
